

**Manufacturer's Certification Statement**  
 Pertaining to the  
**American Recovery and Reinvestment Act of 2009**  
**Pella® Windows and Doors - Pella Corporation**

This Manufacturer's Certification Statement can be relied upon by you, the taxpayer, for verification that certain Pella windows and doors are eligible for the tax credits identified in the American Recovery and Reinvestment Act of 2009.

The IRS has published tax-related interpretations for "non-business energy property" – which are energy efficiency improvements to the taxpayer's principal residence – in IRS Notice 2006-26. The IRS requires the manufacturer be identified: Pella Corporation, 102 Main St. Pella, IA 50219, as the manufacturer of Pella windows and doors.

The IRS defines windows and doors that are eligible for the tax credits of the American Recovery and Reinvestment Act of 2009 as "Eligible Building Envelope Components."

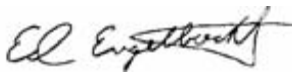

**Following the IRS guidelines, Pella has determined the following Pella windows and doors are Eligible Building Envelope Components and qualify for the credit allowed under Internal Revenue Code Section 25C, when installed as an exterior window or door in all U.S. climate zones and as indicated in the table (below) when purchased and installed from January 1, 2009 through December 31, 2010.**

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.

Ed Engelbrecht, Vice President  
Pella Corporation, October 20, 2009

IRS Notice 2006-26 suggests the taxpayer is not required to attach this certification statement to their tax return. However, the taxpayer should retain this certification statement as part of their tax records. As in all tax matters, the taxpayer is advised to consult their tax professional.

Pella Corporation and its sales partners assume no liability regarding the homeowner's ability to obtain tax credits.
